

3 Days of DevOps in 1 Day: From Local to Production

Aspire

Toni Petrina

Lead SRE

Visma e-conomic

SDD Conf 2024, London

Microsoft's answer

- For Docker Compose
- For secrets
- Monitoring
- Initial dashboards
- Deployment?

Still in preview (currently preview7)

- Rich extensibility model
- Deployment is not supposed to be done with Aspire (Aspir8)

Tasks overview

- Add AppHost
- Configure service defaults
- Add open telemetry metrics
- Compare with current setup

Let's go!

(workshop time)
